Individual Aggregation:

Deductible: Each covered family member only needs to satisfy his or her own individual deductible (not the entire family amount). Once this amount is met, the member will pay a copay or coinsurance for covered services.

Out of Pocket Maximum (OOPM): Each covered family member only needs to satisfy his or her own OOPM. Once this amount is met, covered services are paid by the health plan.

Family Aggregation:

Deductible: For plans covering more than one person, the entire family deductible must be met by one or any combination of covered members. Once this amount is met, members will pay a copay or coinsurance for covered services.

Out of Pocket Maximum (OOPM): For plans covering more than one person, the entire family OOPM must be met by one or any combination of covered members. Once this amount is met, covered services are paid by the health plan for the entire family.

Standard plans are required by New York State. The benefits and out-of-pocket costs for the Standard plans will be the same for all health insurance companies. Provider networks will differ by insurance company.

New York State has identified the fitness facility reimbursement program as a required essential benefit that must be included for all plans, therefore the ExerciseRewards™ program cannot be removed from the plans.

Any one person insured on a family plan will not pay more than \$8,150 in compliance with the Affordable Care Act.

Dependent through 29 rates available upon request.

*Some benefits, such as pediatric vision and durable medical equipment may have different coinsurance amounts.

**An HSA or Health Savings Account is a tax-free funding account owned by you that helps you pay for qualified medical expenses such as lab fees, prescription drugs, contact lenses, chiropractor visits and more. Subsidized health plans are not eligible for health savings accounts.

***Part of the Affordable Care Act is intended to improve dental coverage for children, including preventive, routine and some major dental coverage. Individuals purchasing medical coverage outside of the NY State of Health Marketplace, are required to purchase a medical plan with pediatric dental included, or a qualified stand-alone plan. By purchasing a medical plan with dental included, you can be sure your children will receive comprehensive coverage overseen by our staff of medical management experts, and both medical and pediatric dental services will count towards your out of pocket maximums.

Unless noted above, the deductible must be met first before paying the cost share listed for all benefits.

Note to diabetic drug and supply users: In accordance with the contract language / benefit mandates provided by New York State, if your plan includes a deductible, diabetic drugs and supplies are subject to the deductible amount.

UTICA REGION:

NEW FOR 2020:

Acupuncture: All non-standard plans cover up to ten acupuncture visits per year.

Bronze Standard 3 PCP Visits Covered in Full: On the Bronze Standard plans, your first three Primary Care Physician visits are covered in full, even if your deductible hasn't been met.

New York State has identified the fitness facility reimbursement program as a required essential benefit that must be included for all plans, therefore the ExerciseRewards™ program cannot be removed from the plans.

Any one person insured on a family plan will not pay more than \$8,150 in compliance with the Affordable Care Act.

Dependent through 29 rates available upon request.

*Some benefits, such as pediatric vision and durable medical equipment may have different coinsurance amounts.

**An HSA or Health Savings Account is a tax-free funding account owned by you that helps you pay for qualified medical expenses such as lab fees, prescription drugs, contact lenses, chiropractor visits and more. Subsidized health plans are not eligible for health savings accounts.
